EXPERIENCE & LEADERSHIP

Cerritos High School FTC Robotics - Software / Leadership Team Sep 2023 - May 2026

- Developed and debugged robot software, resolving software-hardware integration issues and documenting technical work to improve reliability and team handoff.
- Integrated a vision camera using AprilTags and color markings to support autonomous robot movement.

Internship - LA Metro TCAP Student Intern June 2025 - Aug 2025

- Collaborated with a 20-person team to develop and present a World Cup-related advertising concept for LA Metro, contributing to project development and coordination.
- Led a subteam in designing a 3D model for the final concept; the project placed 1st among 10+ teams and received recognition for the model.

Cerritos High School Robotics Summer Camp - Instructor June 2025 - Aug 2025

- Co-founded and marketed the program and taught 20 students ages 10-13 robotics fundamentals through hands-on activities.

Website & E-Commerce Support 2024 - Present

- Managed and improved websites and online shops for two startups using GoDaddy, Shopify, and Etsy.

PROJECTS

FocusBuddy - Chrome Productivity Extension Oct 2025 - Present

- Developed and published a productivity browser extension that blocks distracting websites and supports timed study sessions.
- Reached 450+ downloads, turning a personal productivity idea into a publicly used software product built with JavaScript and web-extension technologies.

Personal Portfolio Website Oct 2026

- Designed and developed a responsive portfolio website using Astro, HTML, CSS, and TypeScript.
- Implemented integrated resume viewer and interactive experience gallery
